## CONTACTS

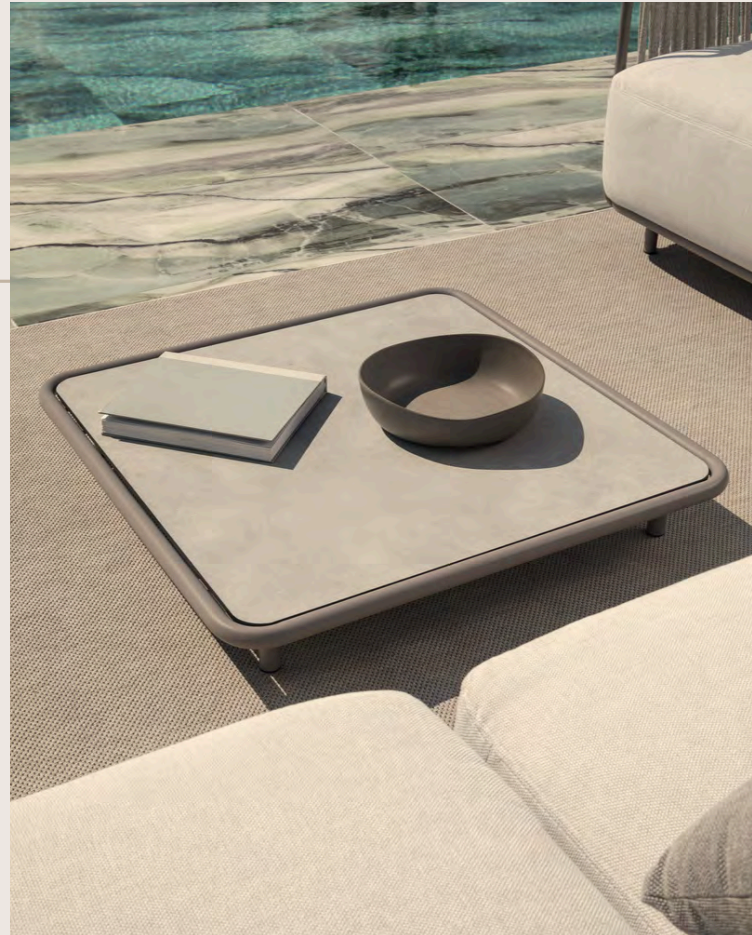

## BE: SPACES THAT TELL YOUR STORY

BE was born from a deep desire: to **stand out, leave a mark, and create something that endures**. It is the vision of those who refuse to settle, of those who transform their journey into a statement of identity.

BE is not just a company.  
**BE is a way of living space.**

An exclusive experience where design, aesthetics, and functionality come together to create places that reflect who you are, your connection with nature, and the environment around you. Spaces that do more than provide shelter: they evoke emotions, **shape atmospheres, and tell stories.**

WE DON'T DESIGN PERGOLAS.  
WE CREATE PLACES TO LIVE.

Every project begins with a promise: to transform every challenge into an opportunity, every idea into material form, every intuition into architecture to be experienced. Choosing **BE means choosing not to remain a spectator.**

It means becoming the protagonist of your own space, your own time, and your own vision. Because BE is where the invisible takes shape.

Where desire meets design.

Where outdoor living becomes an experience.

**A universe defined by light, materials, and style.**

BE— **Giving shape** to what you imagine.

Living who you are.

# SHADE SOLUTIONS

**Lodge** transforms light into well-being, protects outdoor spaces, and enhances the comfort of every environment. It **filters sunlight, provides shelter from wind and rain**, and embraces every moment of your day.

A **micro-architectural structure** designed to combine **technology, comfort, and elegance**. A new vision of outdoor living.

**Features:** A self-supporting structure made of extruded aluminum profiles with stainless steel fittings and accessories.

Finished with UV-resistant polyester powder coating and available in 12 standard colours.

**Maximum Dimensions:** Up to 500 × 1200 cm in the version with 6 columns and insulated sandwich roof. Up to 450 × 1200 cm in the version with PVC roof.

## Roof System

The Lodge roof is fixed and fully waterproof, featuring a PVC Flexlight Lodge 6002 membrane, available in 9 standard colours.

The 40 mm insulated sandwich panel is available in a neutral finish or powder-coated to match the structure.

# BIOCLIMATIC PERGOLAS

Designed to **elevate outdoor living**, bioclimatic pergolas transform open-air spaces into natural environments of comfort and well-being.

Adjustable louvres control light and ventilation with precision, creating the ideal harmony of sun, shade, and comfort at every moment of the day.

Available in aluminium or wrought iron and enhanced by soft drapery, refined detailing, and seamlessly integrated solutions, they embody the perfect balance of aesthetics and performance.

A lightweight, sophisticated architectural statement, designed to extend the living experience beyond the home with elegance and style.

# Code

**Code** dissolves matter and lets space speak.

Its aluminium slats create a sense of light verticality, where light and shadow chase one another with effortless elegance.

Adjustable louvers transform every moment into an atmosphere, turning every outdoor setting into a place to be felt before it is lived. A subtle balance, dynamic and essential: **architecture becoming emotion.**

**Features:** Self-supporting or wall-mounted structure in extruded aluminium with stainless-steel accessories. Powder coating available in any RAL colour. Thanks to its modular design, the system can be configured and expanded to suit the requirements of any space.

**Code** is available in a wide range of RAL colours and finished with POLAR coatings, ensuring exceptional durability, weather resistance and colour brilliance. Optional accessories include vertical screens, panoramic glass enclosures and integrated perimeter LED lighting.

# SMALL SUN SHELTERS

A row of modern, white, minimalist sun shelters with grey cushions on a lawn. The shelters are made of white vertical posts and horizontal beams, creating a series of open-air daybeds. The cushions are a light grey color. The background shows a clear blue sky and some greenery. The overall aesthetic is clean and contemporary.

Garden daybeds transform outdoor living into a sanctuary of tranquillity and beauty. Light silhouettes, welcoming materials and enveloping comfort invite you to surrender to the gentle rhythm of sunlight and fresh air.

Every detail is designed to embrace relaxation as a **natural gesture**.

**A space to be experienced through the body**, the breath and the passing of time.

# Balance

**Balance** is a delicate architectural gesture that organises space without weighing it down, an elegant presence that enhances the surrounding landscape. Between shade, light and open views towards the horizon, the structure creates a suspended retreat where the boundary between architecture and nature becomes almost imperceptible. Every line invites calm, every detail suggests harmony, openness and permanence. More than a pergola, Balance is an equilibrium to inhabit.

**Features:** Self-supporting structure in extruded aluminium profiles with stainless-steel accessories.

Powder-coated with UV-resistant polyester resin finishes, available in 12 standard colours.

**Maximum dimensions:** Up to 420 × 400 cm (Side version)

Up to 520 × 500 cm (Center version)

# Soletto

**Soletto** is a true retreat for those who seek complete relaxation and a unique outdoor living experience.

Its design is clean and almost **minimalist**, defined by geometric forms that create a **contemporary and timeless atmosphere**.

The distinctive supporting legs appear to make the daybed float effortlessly, while the structural columns frame and support it as though Soletto were a work of art.

**Features:** Powder-coated aluminium structure available in three colours.

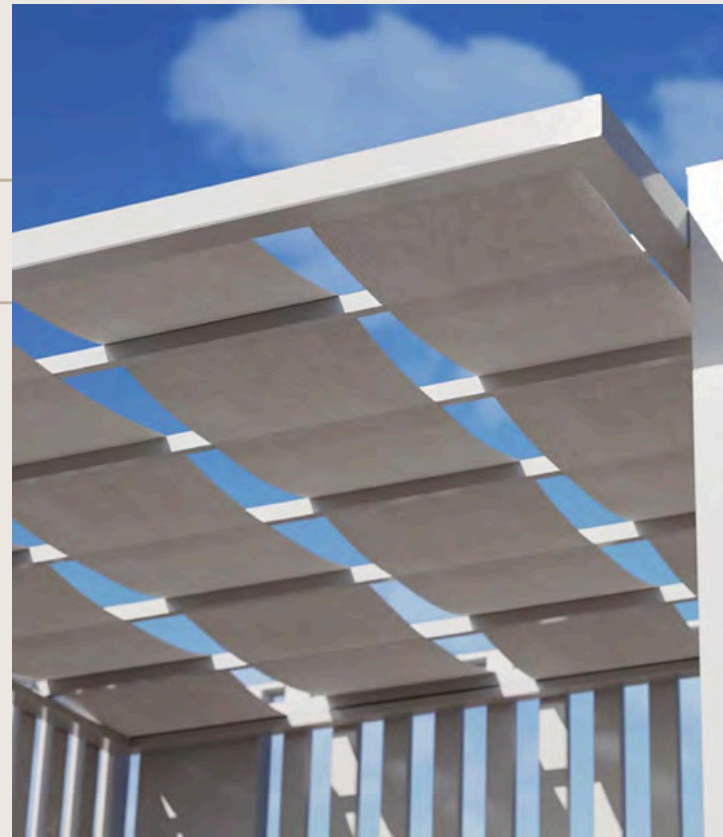

Double removable mattress in differentiated-density polyurethane foam, upholstered in water-repellent fabric.

A breathable membrane ensures waterproof protection while helping prevent mould formation.

Available with aluminium or plexiglass feet and an integrated sliding canopy in filtering fabric.

# Sunbed

Spaces designed for stretching out, embracing the warmth of the sun and enjoying the serenity of outdoor living. Sunbed becomes a haven of relaxation where comfort and nature meet, transforming every pause into a moment of wellbeing.

**Features:** Powder-coated aluminium structure available in 62 colours.

Standard composition: 28 side slats

14 perimeter slats

Mattress size: 200 × 200 cm

Includes:

4 cushions 60 × 60 cm

4 cushions 40 × 40 cm

Made with Tempotest Home Striato fabrics.

Canopy with Tempotest Starlight fabric covering.

# AWNINGS

**Marea** creates delicate shadows that gently embrace space and transform it into a haven of tranquillity.

It filters sunlight, reduces heat and creates a cool, inviting atmosphere where time slows down and comfort becomes an experience.

Features

**Features:** Motorised awning with fully retractable cassette featuring an exclusive stone-effect finish for complete protection of both fabric and structure. Pantograph arms with integrated lighting. Micrometric arm inclination adjustment. Available in 62 custom RAL colours.

# Gate Shade

**Gate Shade** is a distinctive architectural statement where protection and design merge with effortless elegance.

It filters light and defines space, while outdoor furnishings shape moments to be enjoyed in the open air.

Inviting seating, harmonious lines and refined materials create a retreat designed for relaxation, connection and immersion in the surrounding landscape.

**Caratteristiche:** The defining element of **Gate Shade** is an elegant metal arch available in four colours, supported by an internal steel load-bearing structure.

The structure houses two motorised retractable awnings controlled by remote control, covering surfaces up to 5 × 6.4 metres.

**Integrated LED strip lighting is concealed within the ceiling**, with the option of a customised audio system.

# OUTDOOR FURNITURE

**Park:** A sun lounger where contemporary lines and elegant proportions create the perfect balance between practicality and beauty.

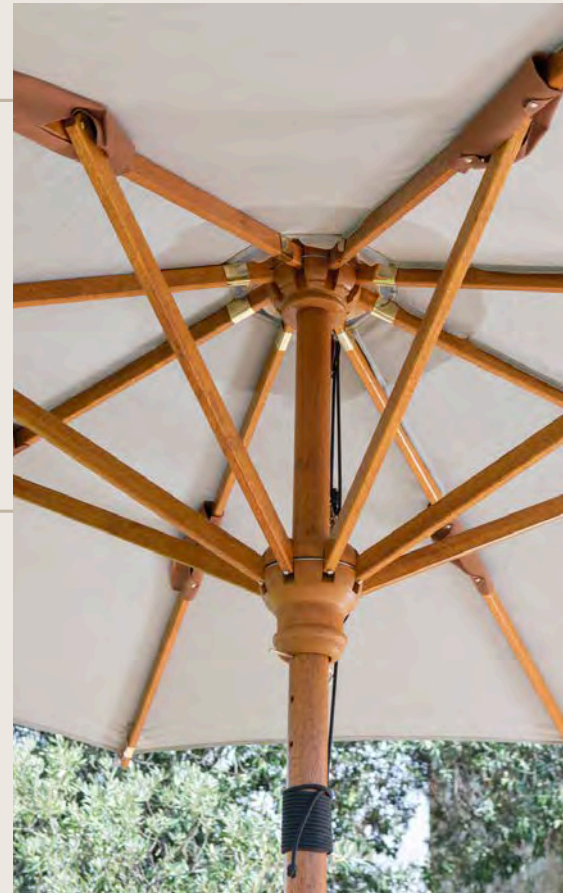

**Features:** Easy to move thanks to integrated wheels and featuring a multi-position adjustable backrest for maximum comfort.

Constructed from galvanised steel, aluminium and Batyline fabric, available in three colourways.

# ABRI COLLECTION

Beneath the umbrella, a shaded retreat comes to life, carrying the scent of summer, the sea and time rediscovered. The light softens, the breeze flows through the space and every outdoor moment becomes filled with calm and lightness. A private sanctuary where wellbeing unfolds at the pace of the most beautiful days.

## Parasols

**Abri:** A parasol distinguished by its pure, understated design. Made with 100% solution-dyed acrylic fabric and a laminated tulipwood pole.

Pulley-operated opening system with braided 100% polyester rope. Also available with an aluminium pole. Abri is offered in a variety of colours for both frame and fabric.

# ALICE COLLECTION

**Alice** is one of the most complete collections in the range. Featuring chairs, tables, armchairs and sofas, it adapts effortlessly to any environment thanks to its understated contemporary design.

**Features:** Structures crafted from galvanised steel, available in a range of finishes. Cushions are removable and washable.

## Lounge Collection

Highly customisable lounge furnishings including: Lounge armchairs, Two-seater sofas, Coffee tables.

## Chairs & Tables and coffee tables

The collection is completed by chairs with seat cushions and a galvanised steel table available in the 70 × 70 cm format.

## Chairs & Stools

Galvanised steel stools with removable, washable cushions available in various fabrics and colours. Stackable.

## Sun Loungers

Reclining loungers in galvanised steel and aluminium with Batyline fabric. Available in multiple colours for both structure and fabric.

# AMPOULE COLLECTION

A drop of light. This is the inspiration behind **Ampoule**. In its oversized floor-standing version it illuminates expansive outdoor settings, while the table version enhances the atmosphere of convivial evenings.

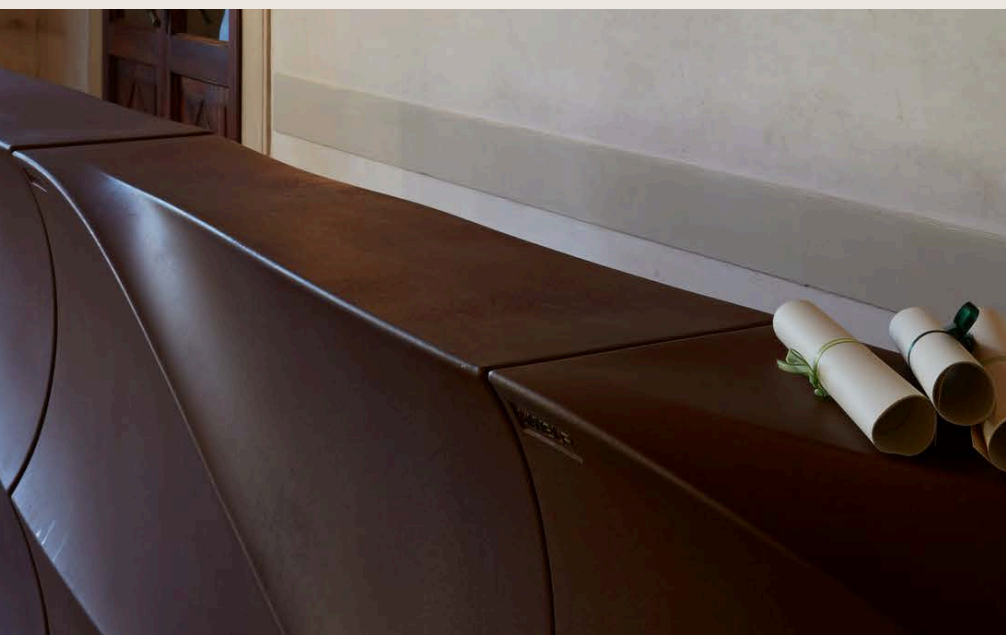

## Lighting

Made from Poleasy®, 100% recyclable. Available with RGBW lighting or white LED illumination, powered either by cable or rechargeable battery.

# COLLEZIONE BARAONDA

Inspired by the fluid movement of a wave embracing a counter, Baraonda can be freely composed into multiple configurations and colours.

## Lighting

Available in illuminated and non-illuminated versions. Portable, foldable and easily detachable.

# DAISY ROPE COLLECTION

A contemporary collection where geometric forms and essential lines intertwine to create a dynamic and functional atmosphere.

## Lounge

Outdoor living becomes a fluid and almost dreamlike space that integrates naturally into any environment.

**Features:** Structures crafted from AISI 316L stainless steel.  
Removable and washable cushions.  
Available in a wide selection of fabric and frame finishes.

# FIRENZE NEW COLLECTION

**Elegance** and comfort meet in outdoor spaces, creating environments designed to be enjoyed with effortless pleasure. Contemporary lines, durable materials and refined details transform poolsides, terraces and gardens into settings of style and wellbeing.

## Sun Loungers

**Features:** Adjustable and stackable loungers made from aluminium and Texplast fabric. Weather-resistant and ideal for sophisticated outdoor living.

# MIAMI COLLECTION

Contemporary style and comfort for outdoor environments.

## Sun Loungers

**Features:** Galvanised steel and aluminium frame with Batyline fabric.

Equipped with wheels for easy movement.

Available in multiple colours.

# PAOLA COLLECTION

**Paola** is the perfect choice for those seeking a chair that combines contemporary design with enveloping comfort.

## Chairs & Armchairs

**Chair** in recyclable polypropylene, 100% Made in Italy. Available in a variety of colours, including velvet-effect finishes and versions with wood-fibre legs.

Equipped with interchangeable non-slip feet. Pairs perfectly with the dining tables from the **Mimì** and **Push** collections to create elegant and versatile living spaces.

# PANDORA LIGHT COLLECTION

As evening falls and the sky turns deep blue, light becomes emotion.

## Lighting

**Features:** The **Pandora** collection includes:  
Three floor lamps  
Three low-standing lamps  
One floating lamp

The **central-stem floor** lamps feature lampshades inspired by the S, M and L seating collections. The low-standing lamps incorporate an illuminated side table, also available in a floating version.

Manufactured in Poleasy®. Available with cable and E27 bulb for floor lamps, or RGBW rechargeable LED lighting for low-standing versions.

# PIUMA COLLECTION

**Piuma** unfolds into sofas, armchairs, poufs and coffee tables defined by a minimal, light and welcoming aesthetic.

## Living

Aluminium structure with outdoor fabric upholstery available in three refined shades and highlighted stitching details. Designed to withstand prolonged outdoor use thanks to its osmotic membrane, while offering enhanced comfort through a reclining system that allows both armrests and backrests to be lowered, transforming the seating into a daybed.

Its modular nature enables multiple layouts and compositions.

## Tables & Coffee Tables

Coffee tables with aluminium frames and Stoneware tops available in three colours.

# PUSH COLLECTION

Its formal rigour and architectural character make **Push** a modular upholstered system suitable for any environment.

## Lounge Collection

The distinctive die-cast aluminium leg presses against the upholstery, creating the refined aesthetic that defines its elegant identity.

Innovative in its ease of assembly and disassembly, **Push** introduces a new concept in upholstered furniture

# Chairs, Tables & Coffee Tables

Outdoor living is a collectio of moments, united by a shared sense od wellbeing and freedom.

On a sofa, around a table, or reclining on a sun lounger, each space becomes an invitation to pause, connect andimmerse yourself in the effortless pleasure of outdoor living.

**Features:** The aluminium leg remains the central design element around which the entire collection has been developed. The range includes:  
Elegant round dining tables in two sizes  
Rectangular dining table  
Dining chair  
Lounge set

## Armchairs

Aluminium structures with Textilene seating and fabric-upholstered backrests.

## Sun Loungers

Aluminium loungers with Textilene covering available in three colours.

Optional upholstered cushions available.

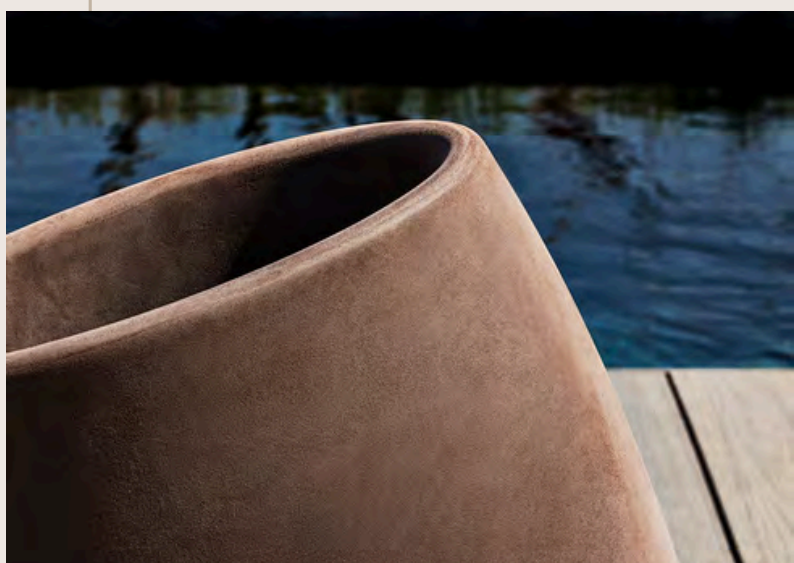

# TAO COLLECTION

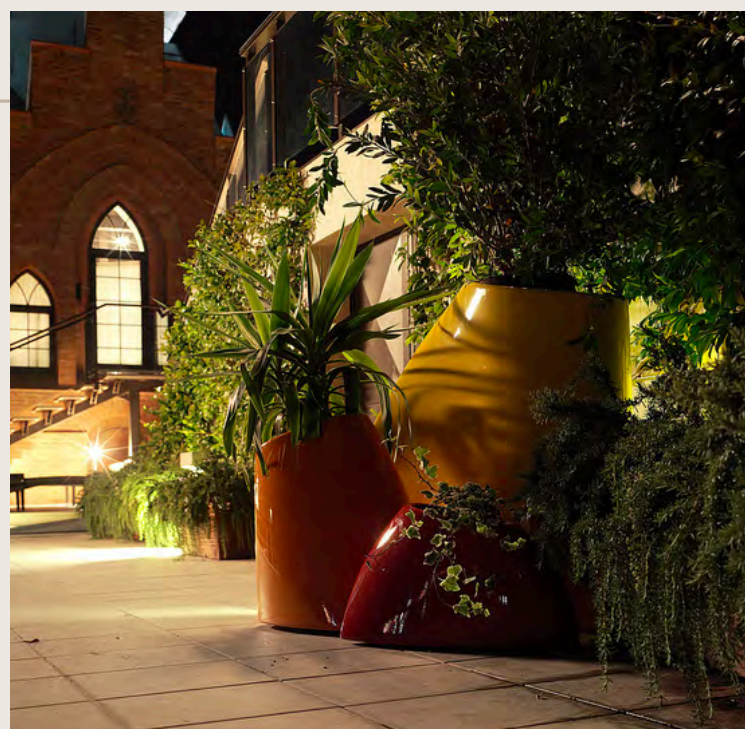

**Tao** is a collection of planters that challenges geometry, drawing inspiration from the rhythmic balance of Yin and Yang.

**Features:** Three curved forms fit together perfectly to create a sculptural monolith inspired by the iconic oriental symbol. The planters can also be arranged freely and are available in velvet, embossed and oxidised finishes.

Manufactured in Poleasy®, 100% recyclable and tested for long-term resistance to outdoor conditions.

# VERSTONE COLLECTION

The tabletops of the Verstone collection evoke a journey through time, recalling memories of the past while engaging in an innovative dialogue with traditional craftsmanship.

## Tables & Coffee Tables

Crafted from enamelled steel, they are robust, scratch-resistant and highly durable.
